## DIVERS AFTER PEARLS.

**Their Work Is Deadly, and They Do Not Live Long.**

Pearl fishers do not live long. They often dive to a depth of 100 feet or more, and the strain wears them out before their lives are half over. From these depths a diver usually brings two oyster shells each "trip." It is on the mother of pearl in these that the European depends for his sure profit. Pearls are "plums," which only occasionally fall to his lot. Divers work for a wage, and all the shells brought up are the property of the employer. In "Studies In Brown Humanity" Hugh Clifford describes Malay pearl fishers. They anchor on the oyster beds or as near them as possible, he says, and the diving takes place twice a day.

"All the boats are manned at morning and evening, and the Sulu boys row them out to the point selected for the day's operations. The white man in charge always goes with them in order to keep an eye upon the shells, to resuscitate exhausted divers and generally to look after his own interests.

"Presently a man lowers himself slowly over the side, takes a long, deep breath, and then, turning head downward, swims into the depths, his limbs showing dimly in froglike motions until, if the water be very deep, he is completely lost to sight.

"In a few minutes he comes into view again, his face straining upward, yearning with extended neck for the air that he now needs so sorely. His hands cleave the water in strong downward strokes; his form grows momentarily more distinct, until the fixed, tense expression of his staring face is plainly visible. Then the quiet surface of the sea splashes in a thousand drops of sun steeped light as his head tears through it, and his bursting lungs, expelling the imprisoned air, draw in the breath which they crave in long, hard gasps. If the dive has been a deep one a little blood may be seen to trickle from nose and mouth and ears. At times even the eye sockets ooze blood, the result of fearful pressure to which the diver has been subjected."

## CHILDREN ARE SANE.

**But Grownup People, Most of Them, Are More or Less Insane.**

There is one disadvantage which is involved in the very nature of education—that is, that we have to assume that grownup people are representative. We have even to go the length of assuming that grownup people are sane. When we talk about encouraging health in children and discouraging morbidity; when we talk of such and such a child being abnormal or interesting or neurotic or a genius, we are all the time taking for granted that we ourselves have attained to what is profitable and eternal in human nature. But there is at least something that may reasonably be said upon the other side. It may at least very plausibly be maintained that it is children who are, age after age, sane and reliable and grownup people who are, age after age, more or less fantastic and disconcerting. The great majority of grownup people in any age will be in all probability slightly insane; for since no human philosophy is perfect, and since every human philosophy naturally treats itself as if it were perfect, the chances are in every generation that the majority of educated people will be ecstatically certain of something that is quite untrue. Children, on the other hand, it might be maintained, represent the actual primary and untouched human nature. Whatever agrees with that is sane; whatever disagrees with it is eccentric. Children are always children, or, to limit the matter with more precision, babies, at any rate, are always babies. But few will be so paradoxical as to maintain that men are always men or women always women.—Black and White.

**A Sleep Destroyer.**

"Are you ever troubled with insomnia—sleeplessness?"

"I should say I am. Some nights I don't sleep three hours."

"That so! I've got it awfully bad. I've been afflicted now about two years. The doctor calls it neuris insomnis paralaxitis."

"I've had it about eighteen months, and we call it Ethel."—Schoolmaster.

## MODERN UTOPIAS.

**European Countries In Which Pauperism Is Unknown.**

Denmark claims that there is not a single person in her domain who cannot read and write. On the northeast coast of New Guinea the island of Kutaba, surrounded by a wall of coral 300 feet high on one side and from 50 to 100 feet on the other, maintains thirteen villages of natives, to whom war, crime and poverty have been unknown since the beginning of their traditions. The most peaceful and comfortable community in Europe is the commune of the Canton Vaud, in Switzerland. Nearly every one is well off, and there are no paupers. Finland is a realm whose inhabitants are remarkable for their inviolate integrity. There are no banks and no safe deposits, for no such security is essential. You may leave your luggage anywhere for any length of time and be quite sure of finding it untouched on your return, and your purse full of money would be just as secure under similar circumstances. The Finns place their money and valuables in holes in the ground and cover them with a big leaf. Such treasure is sacredly respected by all who pass it, but in the rare event of a man wishing to borrow of his neighbor during his absence he will take only the smallest sum he requires and place a message in the hole telling of his urgent need and promising to repay the amount on a specified date. And he will invariably keep his word, for the Finn is invincible in his independence.

Agneta Park, near Delft, in Holland, is another Utopia example. A tract of ten acres has upon it 150 houses, each with its little garden and with certain common buildings and common grounds. The houses are occupied by the employees of a great distilling company, who form a corporation which owns the park. Each member owns shares in the corporation and pays rent for his house. The surplus, after all expenses have been paid, comes back to him as dividend. If he wishes to go away or if he dies his shares are bought up by the corporation and sold to the man who takes his place.—Detroit Free Press.

**A Friend.**

A friend whom you have been gaining during your whole life you ought not to be displeased with in a moment. A stone is many years becoming a ruby. Take care that you do not destroy it in an instant against another stone.

**Woman's Duties.**

A woman who keeps her house in order and has the care of a family, has just as much responsibility as the man who provides the means to carry on the housekeeping. She is the deserving of the more credit since the demands on her strength are greater. The everlasting sameness about her duties, and the confinement necessary to carry them out is very trying to the nervous system, this produces a strain on the mind that makes her irritable, cross, and dissatisfied, which is just as much a disease as rhematism or catarrh. If the nerves can be built up and made strong by medicine of some kind, this feeling is changed to one of cheerfulness and pleasure in her duties. The medicine that makes strong steady nerves, and prevents disease by building up the entire system, is Dr. Gunn's Blood and Nerve Tonic, a tablet to take at meal time. Cures nervous prostration by making rich blood, feeding the nerves, and making solid flesh at the rate of 1 to 3 pounds a week. This medicine is sold by druggists for 75 cents per box, or 3 boxes for $2, or sent by mail, post paid, on receipt of price. Write us about your case. Address Dr. Bosanko Medicine Company, 128 S. Sixth street, Philadelphia, Penn.

**PICKING A BONE**

isn't good form of course, but our meats are so good that it is hard to part with even the smallest portion. Beef, Mutton, Veal, etc. of such excellent quality is only obtainable here. We use the utmost care in its selection and see that it is properly kept for the short time it remains in our market.

**What Time Proves.**

This thing of being sick and looking for a cure is a mighty serious business. People are not given to joking even at the first symptom of the approach of the grim destroyer. They do not want to be the subjects of experiment, but want medicine that had the test of years behind it. A medicine that has been made and used for 20 years give assurance of its worth, and can be taken with faith that they have the very best cure the world affords. All this can be said about Dr. Gunn's Improved Liver Pills as a remedy for sick-headache, dyspepsia, and indigestion, it begins right at the source of the trouble and the removes the cause. We will send a sample box of these pills free, or a full box on receipt of 25 cents. Sold by all druggists for 25 cents per box, or address Dr. Bosanko Medicine Company, 128 S. D. E. O'KEEFE.....EDITOR AND PROPRIETOR

John Hay is a great American. He is a man to be proud of, and citizens of every party should congratulate themselves that so able, astute and level-headed a man is at the head of the State Department. He is making the power and influence of the American felt as they were never felt before, not even in the days of the great Seward. The prompt measures he takes to protect American interests and the rights and persons of American citizens show a watchful zeal worthy of the highest praise. In the domain of diplomacy his victories have been many, with no defeats to dim the glory of his triumphs. He is a great statesman in a great country.

## THE KINDERGARTEN.

**It Will Reopen With a New Outfit and a Subscription List.**

Friends of kindergarten work will be interested in knowing that an effort is about to be made to re-open the kindergarten in Redwood. The ladies of St. Peter's Guild have decided to undertake the purchase of a kindergarten outfit from St. Luke's Episcopal church, San Francisco, with the understanding that a subscription list amounting to $24 monthly is to be continued for the work here. Provision has been made for the first payment, $25, on the outfit and it is hoped to raise the remainder, $50, at a sale to be given by the Guild on the Tuesday after Easter. The amount needed for the running expenses of the kindergarten, in addition to the $24 monthly from San Francisco will be obtained chiefly, it is hoped, from subscriptions. The ladies of the Guild and the officers of the church believe that they can rely upon the sympathy and support of the people of Redwood in this undertaking which is directly for the public good. With good schools, library and gymnasium, the kindergarten is the one missing link in our chain of social institutions. In no way can anyone more directly benefit the town than by helping to brighten and develop the lives of the little children. Articles suitable for the Easter sale, or promises of money either in monthly pledges or in single sums will be most gladly received by any of the ladies of the Guild or any of the officers of the church, or by Thomas C. Marshall, minister in charge of the church.

**Farmers' Institute April First.**

The College of Agriculture of the State University is arranging to hold a Farmers' Institute here on April first. Able professors will be present to speak on topics of interest to farmers and horticulturists. The live oak pest, which is alarming the valley, will be discussed at length by a well known authority on that subject. The Institute will be in session two days. Besides interesting talks there will be a splendid program of vocal and instrumental music. The college is holding meetings all over the State and is greeted everywhere with large attendances. Next week the program will be published in full. It is hoped the Institute will be a success.

**Wisnom Company Incorporated.**

Articles of incorporation of the Wisnom Company were filed in the Clerk's office Wednesday. The purpose for which the company is organized is to acquire, purchase and sell real estate and buy and sell bonds. The incorporation is to exist for the term of fifty years and the principal place of business is to be San Mateo. The capital stock of the company is $100,000, divided into 1000 shares at a par value of $100 each. Seven hundred dollars of the stock has been subscribed by the following: John Wisnom, R. J. Wisnom, Carl Elfving, Robert, W.D., Sarah and Anna Wisnom.

**Lakes Filling Up.**

The recent rains have proven a veritable harvest for the Spring Valley Water Company. The Crystal Springs lake has gained ten inches during the past season. When it is remembered the surface of the lake is about half a mile wide by three miles long some idea of the great gain can be imagined. All the other lakes of the company show a like increase.

## Cornerstone Celebration.

The committee appointed by the Supervisors to arrange a celebration in connection with the laying of the cornerstone, held a short meeting last Friday at which reports were received from the sub-committees. The work of getting up a celebration is progressing satisfactorily and a program will shortly be issued. Money will be required to defray the cost of the event, and it is hoped that all will respond promptly and liberally. Geo. W. Lovie, who has charge of the parade feature of the day, is planning something elaborate. He has appointed Dick Jury, the San Mateo editor, as marshal, and will select his aids from different parts of the county.

The building committee of the Board of Supervisors have agreed upon the following inscription for the courthouse:

Erected A. D. 1904. Supervisors: J. Eikerenkotter, First District; J. H. Coleman, Second District; P. H. McEvoy, Third District; J. Debenedetti, Fourth District; C. L. McCracken, Fifth District. Architects—Dodge & Dolliver. Builders—American-Hawaiian Construction Company.

## A NEW ENTERPRISE.

### The Alaska Codfish Company Will Locate on the Bay Shore.

Geo. W. Lovie has a deal pending, which if consummated, and there is hardly any doubt but that it will, within the next few days, give Redwood City an industry that will be a great benefit to it in a business way. Mr. Lovie is about to close a deal for a large tract of marsh land near the bay shore and adjoining the Grecco Salt Works on which is to be established a packing and drying codfish works by the Alaska Codfish Company. They have a large plant across the bay and it is to be moved to this side at once. The company will have fifty men in its employ, many of whom will live in this city. A launch will run between Redwood and the works, carrying provisions to the camp and conveying the men to and from work. The site selected is a good one as deep water vessels can approach to a long wharf that is to be erected. The company has a line of sailing vessels running between San Francisco and Alaska that can dock at the proposed works at any tide. The establishment of the plant here will be a big spoke in the industrial wheel of Redwood City.

### Patrick Brooks' Estate.

Sarah A. Whelan and Delia F. Spellman, through their attorney E. F. Fitzpatrick, have applied in the Superior Court for letters of administration upon the estate of Patrick M. Brooks who was killed by one of the south bound trains near Colma last Saturday evening. The petitioners are the daughters of the deceased. The value of the estate is not mentioned in the petition except that it exceeds $10,000. It consists of a deposit of $1200 in the Hibernia Bank, forty-five head of cows worth $700, eight calves worth $100, and other personal property valued at $130. The real estate consists of 530 acres of land near the town of Colma, value unknown and two lots in Colma worth $300.

### A Cotton Wedding.

Mr. and Mrs. John Coats entertained a number of friends at their home last Saturday night, the 12th, that being the first anniversary of their marriage. A number of games and contests helped to pass the evening and were entered into with much zest. At a late hour dainty refreshments were served. Mrs. Coats received a number of useful cotton articles, as the affair was her cotton wedding. Among those from outside of town who attended were Miss Fannie Walker and Miss Ida Kugeler of San Francisco and Mrs. and Miss Mabel Bowman of San Mateo.

### Rainey Plead Not Guilty.

George D. Collins of San Francisco delivered a lenthy argument in the Superior Court on Thursday to set aside on various technical grounds the complaint filed against James H. Rainey, alleged to have committed perjury in the case of the People vs. Fred Meyer, and others. Attorney Collins was ably answered by District Attorney Bullock. The Court denied the motion whereupon a demurrer to the complaint was filed and it was overruled. Rainey was then asked to plead to the information filed against him and he plead not guilty. By consent Tuesday April 5th was the day set for the trial.

### Natives Will Dance.

On Friday evening, April 8th, San Mateo Parlor No. 23 N.S.G.W., will give its after-Lenten dance in the San Mateo Athletic Club hall, and all that come are assured of a good time. The music will be a special feature. The parlor has gone to a great deal of expense to make its initial dance a great success and all should come to help make it a very enjoyable evening. Supper will be served at the restaurants to all who wish to partake of light refreshments at the midnight hour.

### Death of a Native Daughter.

Miss Rose A. Kelly, after an illness of many months, passed away at her home at Woodside early yesterday morning. Her death is a great shock to her many friends. She was a native of Woodside and a member of Bonita Parlor, N. D. G. W., of this city. Deceased was a great favorite with a wide circle of friends. She leaves to mourn her a sister, Mrs. Bozzo and two brothers, James and John Kelly.

# COUNTY BOARD IN SESSION

## Official Business Transacted by the Supervisors at Monday's Meeting.

### New Court House Building Will be Constructed of Stone. Precinct Boundaries.

The Board of Supervisors held an adjourned meeting Monday, at which all the members answered roll call.

Chairman Coleman made the order dispensing with reading the minutes of the previous meeting.

T. C. Van Ness Jr., representing Reclamation District No. 543, presented the following petition:

San Mateo, San Mateo County, Cal., March 14th, 1904.

To the Honorable the Board of Supervisors of San Mateo County, Gentlemen: Your petitioner respectfully shows and represents to your Honorable Board that he is a landholder within Reclamation District No. 543 and a resident of the County of San Mateo, State of California; that an election of trustees for the said district is required by law to be held in the year 1904; and your petitioner respectfully requests that your Honorable Board fix a time and place for the holding of said election in or near said district and direct that notice of said election shall be given;

That under and pursuant to the Statute in such cases made and provided, such election must be held within sixty (60) days from the time of this application, and the place where the same shall be held must be in or near the said Reclamation District. Notice of such election must be given by publication for not less than one month in a newspaper published in said San Mateo County. The law furthermore requires that there shall be appointed by your Honorable Board from the landholders of the District, for the purposes of said election, one Inspector and two Judges of Election, who shall constitute the Board of Election for such District.

Very respectfully yours,
W. P. A. BREWER.

McEvoy offered the following resolution granting the prayer of the petitioner:

The application of W. P. A. Brewer, a landholder in the Reclamation District, No. 543, having been made to this Board for the appointment of the time and place for holding an election of Trustees of said District, on motion of McEvoy, seconded by Eikerenkotter.

It is hereby resolved, that Saturday, the 16th day of April, 1904, be, and the same is hereby, appointed as the time, and the San Mateo Bank at San Mateo, California, is hereby appointed as the place, for the holding of an election for Trustees of Reclamation District No. 543, at which election there must be elected three eligible persons to constitute, when elected and qualified, the Board of Trustees of the said District.

It is further resolved, that notice of such election be given by publication for not less than one month in the "San Mateo Leader," a newspaper published in said Mateo County.

And it is further resolved, that M. M. Tompkins, Jr., a landholder within said District, be, and he is hereby, appointed Inspector, and A. L. Whitney and John Mitvalsky, also landholders within said District, are hereby appointed Judges of Election, who shall constitute the Board of Election.

By order of the Board of Supervisors.

It was seconded by Chairman Coleman and duly adopted.

The specifications for the new Court House, permitting the use of stone instead of brick, were read by the Clerk. They were quite lengthy and much time was consumed in reading them.

Eikerenkotter thought that some provision should be made in the specifications in reference to the stone — that if the Franklin quarry should peter out the County ought to be in a position to dictate to the contractor as to the quality of the stone to be substituted. McEvoy thought the County was amply protected in that respect by the contract with the American-Hawaiian Construction Company. He was not, however, opposed to further safeguards the Board might wish to place in the contract.

District Attorney Bullock said the specifications would have to be modified and he would insert whatever clauses the Supervisors desired.

Debenedetti explained that the matter before the Board was whether or not stone or brick was to be used in the new Court House. The quality of the stone was an after consideration.

As this was the meeting at which the citizens of the county were to appear and oppose the proposition, Chairman Coleman inquired of the Clerk if any protests had been filed. Mr. Schaberg replied that none had been received. Mr. Coleman then asked if anyone present desired to be heard on the question, but there was no response on the part of any member of the large audience present.

McEvoy said that inasmuch as there were no protests and as the Supervisors were only the agents of the people, he for one favored the change and was ready to vote. He thought the people of the county were amply notified through the press.

Debenedetti, Eikerenkotter and McCracken also favored the change. After considerable discussion Debenedetti explained that inasmuch as there were no protests, and as this was the day fixed for determining the matter, he would move that the specifications of the new Court House be so changed to call for the use of tooled stone instead of brick.

The motion was seconded by McCracken and passed without a dissenting voice.

The following estimates of the cost of the change was submitted by the contractor:

SAN FRANCISCO, March 5, 1904.

To the Honorable Board of Supervisors of San Mateo County, California.

Gentlemen: We hereby agree to furnish and set all of the sandstone work above the water table course for the new San Mateo County court house at Redwood City, according to the drawings and specifications furnished by Dodge & Dolliver, architects; said sand stone to substitute brick facing, terra cotta finish and galvanized iron cornices, etc., and to be the same kind and quality of sand stone as adopted for basement wall facing, the same to have all exposed faces tooled, for the additional sum of fifty-seven thousand and nine hundred dollars ($57,900.00). Or the above work to be done with all exposed surfaces, except mouldings, cornices, etc., in rock faced work for the additional sum of fifty-one thousand dollars ($51,000).

American-Hawaiian Engineering & Construction Co., Limited
Per J. B. Rohrer, Asst Manager.

The quality of the stone to be used was then discussed. Architect Dodge favored the Franklin stone, that which was to be placed in the base of the new building. It possesses good compressive strength, was durable and in his opinion superior to any he had seen. P. A. Roussell, the superintendent, also favored the Franklin stone. Some doubts were expressed as to whether sufficient quantity could be secured from this quarry.

Mr. Rhorer of the American-Hawaiian Construction Company, said he had inspected the quarry and found an unlimited supply of stone. "They are using it in the new Red Men's building in San Francisco," he said, "and the superintendent of construction is enthusiastic in his praise of the quality of the stone and the general uniformity of color."

McCracken suggested that a pilgrimage be made by the Supervisors to the quarry to ascertain the true condition for themselves:

The price of the stone was then discussed whereupon District Attorney Bullock informed the Board that the question of amending the specifications and fixing the price could be taken up at any time.

### Afternoon Session.

The Board of Supervisors met at 1:30 pursuant to adjournment at the morning session.

Assessor C. D. Hayward appeared before the Board and asked permission to employ the Surveyor to make several map books for use in his office. On motion of McEvoy, seconded by Eikerenkotter, the request was granted.

The matter of reprecincting the county when then taken up. After the reading of the boundary lines of the various precincts the following protest was presented:

To the Honorable Board of Supervisors of the County of San Mateo, State of California—Gentlemen: We, the undersigned citizens and residents of the Third township, in the County of San Mateo, State of California, do most respectfully petition your honorable body against the proposed change in the boundaries of certain voting precincts in said township, and we respectfully submit and represent as follows:

That we are informed and advised that an ordinance changing the precincts in said Third township, and particularly in Redwood City, has been prepared and was submitted to your honorable body at your last regular meeting.

That said proposed ordinance, as presented, contained among other things and matters, three voting districts to be known as Redwood precinct No. 1, No. 2, and No. 3; Redwood precinct No. 3 containing all that territory outside of the corporate limits of the municipality of Redwood City, and including all the land and territory extending to Woodside precinct on one side and to Menlo Park precinct on the other.

We are satisfied that the ordinance as presented, contains a proper subdivision of the territory into precincts, and that the proposed change, as proposed by the Supervisor of the Third district, by which it is intended to make two precincts in Menlo Park, and to include in one of said Menlo Park precincts all of the territory, or the greater part thereof now included in Redwood No. 3, would be unfair and unjust to your petitioners, for the reason that, if they desired to exercise their privilege at the polls, it would become necessary for them to pass by RedwoodCity and travel, some of them, more than four miles in order that they might vote at Menlo Park.

We respectfully suggest that the convenience of the residents and citizens living within what is known as Redwood precinct No. 3, should be considered, and that to force them to travel to Menlo Park for the purpose of voting, upon the sole and only grounds that no suitable polling place can be found in which to cast their votes, is, to say the least, ridiculous and absurd. A suitable polling place can be found or a polling booth erected at a great deal less cost and with a great deal less inconvenience than it would to require your petitioners to lose the greater part of a day in traveling a considerable distance to exercise their constitutional right of casting their ballot, and we earnestly request your honorable body to carefully consider the lines as now drawn in the ordinance as submitted at your last meeting and the lines as suggested by the Supervisor who proposed to make the change. A casual inspection thereof will immediately show the great inconvenience that will be entailed upon your petitioners by adopting the suggestion of the Supervisor in creating two precints in Menlo Park.

Respectfully submitted,
F. P. Wentworth, J. F. Shermantine, P. J. Foley, Victor Boicelli, George Paulsen, Kenneth S. Murray, Thomas M. Horgan, George Angus, H. L. Goertzhain, Herrmann Goertzhain, Herrmann Goertzhain Jr., Louis Goertzhain, John J. O'Connell, C. P. Wentworth, H. G. Shermantine, C. Clarke, G. J. Liguori.

McEvoy called the Board's attention to precinct No. 3 which was only a remnant of a district in which there were only a few families. He thought it wise to establish two precincts in Menlo Park and abolish No. 3 in Redwood City. He further explained that it was impossible to secure a polling place in the latter precinct. He called upon Frank Johnson and Hanse Agard who reside near the Selby Lane and who are affected by the change, to give their views. Both expressed themselves satisfied with the new boundary lines and said they had heard no opposition to them by any of the residents in their districts. On motion of McEvoy, seconded by Eikerenkotter, the prayer of the petition was denied.

The ordinance establishing the boundary lines of the precincts was ready for adoption but owing to a few changes to be made in the Baden and Colma precincts further consideration was deferred until next Monday when it will be passed and adopted.

McCracken explained to the Board that a tree had fallen during the recent storm on the Pescadero bridge, separating it from its foundation and the swollen stream had washed it down the creek. It was a 90 foot span and was made of wood and steel. The original plans were on file in the Clerk's office. On motion of Debenedetti, seconded by Eikerenkotter, the Supervisor of the Fifth Boad District was empowed to repair the bridge. No further business appearing the Board adjourned to Monday, March 21.

## STANLEY AIRSHIP DESTROYED

### It Will However Be Rebuilt on a Smaller Scale.

It will now be some time before Redwood City will have an opportunity to witness aerial navigation, for in the first contest between the great Stanley airship and the united elements, the latter won the day. As a result there remains but a distorted heap of bent and twisted aluminum, gaspipes, and ruffled sheet iron, of the once magnificent mammoth.

The disaster took place during the recent "baby cyclone". The ship was being lengthened and prepared for her initial trial trip in San Francisco, and for this purpose a high solid bank of scaffolding was erected to prevent resiliency of the structure. The force of the storm struck this temporary frame work with a full force and tearing the great ship from its moorings crashed it against the high board fence. A second gust completed the work. The aspirant for aerial honors was left a total wreck in a vacant lot. The structure now lies in the ruined shipyards at Fell and Baker streets, San Francisco; its tangled mass of thin aluminum plates closely resembling a gigantic scintillating cobweb.

The great airship was the property of the Stanley Aerial Navigation Company, a stock corporation of San Francisco, and was being built to revolutionize means of transportation. After years of preparation and careful construction the efforts of the owners seemed about to culminate in a completion. It was planned to have the trial trip take place in San Mateo and Santa Clara Counties when the greatest storm ever experienced upon this coast put an end to the cherished ambition of the inventor. Mr. Stanley does not feel entirely discouraged, however, for he is now planning to rebuild upon a smaller scale. A detailed account of the mechanical construction of the great airship appeared in the Times-Gazette of January 2.

## CRUSHED BY FALLING WALL.

### Young Man Well Known Here Meets Horrible Death.

William E. Thorn, who some years ago married Miss Franklin of Portola, where her brother, James Franklin, still resides, met with a shocking accident last Monday morning that resulted in instant death. While superintending the repairing of a warehouse damaged by storm in that city last week, he was caught by a falling wall and instantly killed. The unfortunate young man was badly crushed and he was so deeply buried beneath the debris that it was some time before the rescuers were able to extricate the body from the ruins.

When the men went to work to repair the damage one of the walls was tottering and it was necessary to prop it up to keep it from falling. Thorn was directing the work on what seemed the most dangerous part of the wall, when, without warning, another part of the wall near which he was standing came down with a crash, burying the foreman beneath a mass of planks and timbers. Rescuers at once set to work to release Thorn, but when they reached the body life was extinct.

Thorn was 40 years of age and leaves a wife and four young children. He was a prominent member of the Livermore Fire Department and was also a member of the Woodmen of the World and Foresters of America.

## WOODSIDE CHIPS.

WOODSIDE, March 18—Miss Mary McLevie who conducted the boarding house at Matheison's hotel has removed to one of the Neumann cottages where she will continue her boarding house.

George Shine killed a large wildcat last Sunday in the old Carnell place. Wildcats have become very numerous of late and a good many people are complaining of losing chickens.

George Rice and wife of Redwood were up this way Wednesday calling on friends and looked after business interests in this vicinity.

H. Crowhurst, the laundryman has given up that business and entered the hotel business. He will conduct an up-to-date eating house adjoining Jack Williamson's saloon.

The baseball team had its first tryout of the season last Sunday. A hot practice game was played, filled with grandstand plays and every other kind of plays, and resulted in a score of 3 to 2.

Mrs. C. S. Dalve has removed into new home, the old Ring place.

The rain gauge here shows about thirty inches of rain for the season. This is an usual fall for this season but will be of great benefit to the county in the near future.

## SUPERIOR COURT.

### Proceedings Had in Probate and Civil Matters Past Week.

Estate of Patrick Ganey, deceased—Final account and petition for distribution continued to March 24th.

Estate of C. H. Remington—Order made setting apart to the widow, May I. Remington, all of the estate.

Estate of William Howard, deceased—Sale of lot at Burlingame to Elizabeth O'Brien confirmed for $2200. Also sale of lot at Burlingame to John Wisnom confirmed.

Estate of Chas. D. McLellan, deceased. Order made settling first and final account of Asa D. McLellan as administrator.

Estate of Patrick M. Brooks, deceased. Sarah A. Whelan and Delia Spellman, daughters of deceased, appointed special administrators with bond fixed at $500.

# MENLO PARK OCCURRENCES

## Paragraphs, Personal and Otherwise, From the Village of Beautiful Homes.

### St. Patrick's Day Entertainment at Menlo a Social and Financial Success.

MENLO PARK, March 18.—H. D. Kell and wife have moved down from the city for the summer.

Frank Moulton will commence his building at Fair Oaks on the first of the month.

Martin Kuck has a force of men repairing the gardens of the Menlo Park hotel.

James Moran has bought a small place at University Heights and will build as soon as the weather permits.

Warren Clarke has rented the Donohoe place opposite the Catholic church for the summer. He has occupied that beautiful residence for the past two seasons.

The League of the Cross Cadets' second annual military ball will take place at the armory Friday evening, April 15th. On that night the company will appear in full uniform.

E. B. Ryan and wife, Shirley and Miss Daisy Ryan, who have occupied apartments at the Occidental hotel in San Francisco all winter, are occupying their beautiful summer home here.

J. E. Maloney is able to be around with the aid of crutches. His numerous friends are glad to see his smiling face again. He is slowly recovering from the effects of an injury to his ankle sustained some two weeks ago.

Messrs. Lyons and Wolfe who occupied the McNab cottage last summer and who were supposed to have taken it for this season, have leased the Stallard residence on Glenwood avenue. They will move down from San Francisco next week.

Mr. Draycott who was a gardener at the Sherwood Hall nurseries in its palmy days arrived here from the East Thursday. He has visited nearly all parts of the United States since leaving here ten years ago.

The Gaelic League held an important meeting Sunday evening, at which there was an increased attendance. Many new members were added to the Gaelic class. After instruction by the professors the audience was entertained by the rendition of several songs in Irish by a well known local Celt. There will be another meeting Sunday evening.

Some time Sunday night thieves entered the residence of A. J. Marcus and affecting an entrance to the cellar removed a number of bottles of choice wines that had been imported from Greece. The culprits left no trace of their identity and it is hardly possible that they will be apprehended though the officers are making a diligent search for the offenders.

W. P. and Frank Gray arrived from a visit to their old home in West Virginia this week. Thursday night their many friends here gave a barbecue in their honor. About twenty guests attended the festivities and listened with intense interest to the eloquence of the travelers in relating the many incidents of their trip in the sunny South land.

W. B. Allen, proprietor of the Palo Alto hardware store that will be opened on the first of April, has appointed James Fitzgerald one of his assistants. James is a graduate of Holtt's and Heald's Business College and is a young man of steady habits, capable and trustworthy. He will have charge of the electrical department of the store and will also learn the hardware business.

Ira G. Holtt, the veteran educator, suffered an attack of congestion of the brain last Monday evening and for a time it was feared it would develop in paralysis. The prompt arrival of medical aid, however, prevented any further inroads of the disease. His relatives had grave fears for his recovery. Yesterday he was reported much improved and out of danger, which will be good news to his numerous friends, who hold him in the highest esteem.

Tuesday afternoon last the keystone which marks the completion of the main body of the Stanford University buildings was laid in the arches of the outer quadrangle. A large number of students and members of the faculty gathered to witness the ceremonies, which were conducted by the senior class. Charles K. Field, '95, now of San Francisco, represented the alumni. Dr. Jordan spoke of the wonderful progress made by the university and predicted great glory for it in the years to come. Many well known Stanford men of earlier classes were present.

Through the timely efforts and good judgment of William Flannigan a serious fire was averted last Sunday morning. While the family of William Casey were all at church the chimney of the residence took fire and the flames issued far above the building. The flew was defective and the blaze was igniting the woodwork around the chimney when Mr. Flannigan climbed to the roof and by cutting away a few feet of shingles put out the fire with the aid of a hose and a strong pressure of water. Chief MacBain had his company and the hose cart at the scene of the fire soon after the alarm was rung in but their services were not required as Mr. Flannigan already had the flames under control.

Deb Buelna, a former Menlo boy, is rapidly coming to the front as a baseball player. He is now with the Oakland Professionals and is doing fine work playing third base. It is almost positive that he will make the team and be ready to open the season with the Professionals at Los Angeles. The tryout is now being made at Hanford and the papers of that town are enthusiastic in their praise of Deb's good work. He has been one of the star players on the Palo Alto Height school team for the past three years and his ability as a ball player has been known all over the valley. The members of the University team have been watching his career for some time. It is hoped he may be able to enter the University, as his position with both football and baseball teams would be assured.

### PLEASING ENTERTAINMENT.

As predicted in these columns for the past few weeks, the entertainment given in Duff & Doyle hall last Thursday evening under the auspices of the Young Ladies' Sodality was a complete social and financial success. Long before the curtain rung up the hall was crowded—standing room being at a premium. On nearly every coat lapel the shamrock was plainly visible. James T. O'Keefe was chairman of the evening and announced the program, which contained excellent features throughout. The musical talent was the best. The entertainment was opened by a piano solo by Miss Fannie Hausman. The "Wearing of the Green" was sung in Gaelic by the juvenile choir composed of the following little girls: Misses K. Lynch, R. Lynch, E. Lynch, J. Bruce, T. Sullivan, M. Kelly, M. Gale, I. Roche, M. Hoff, A. Feeley, J. Farrell, C. Farrell, A. O'Day, J. Larricon, E. Martin, C. Carleton, B. Mason, M. O'Day, K. Fromhertz, Augustine McCullough, Christ McCullough, W. Gale, J. Kelly, A. Gale. The four-hand reel by Misses May Hanley, Mabel Pratt, Nina Haslip and May Rogers was a feature that aroused much applause. Miss Jennie Farrel and Master Joseph Kelly sang a duet with the sang froid of professionals. The "Minstrel Boy" was rendered by William Judge in a pleasing manner. A vocal solo by Nina Haslip provoked much merriment.

The feature of the evening was the oration of Father O'Ryan on the "National Poetry of Ireland." He has a reputation as an orator and he more than sustained it. He eloquently dwelt upon the part the bards of Ireland had taken in preserving literature in all ages of Europe. Many of the songs written in the early centuries were models of pure English and would survive to the end of time. Throughout his remarks Father O'Ryan was eloquent, and as he finished he was given a round of applause.

Miss Annie Rooney, an old-time favorite, sang softly and sweetly "The Bells of Shandon." Though the audience was admonished to refrain from encoring, Miss Rooney was recalled and given an ovation. The "Island of Dreams" was sung in a charming manner by Miss Grace Partee. A recitation entitled "Why We Celebrate" was delivered in a stirring way by David Kirby. A farce entitled "A Pair of Lunatics" was produced by Frank Scully and Miss Agnes Rankin and caused no end of laughter. This number concluded the program.

## CITIZENS SELECT CANDIDATES

### Walker, Foley and Mourot Named for Town Trustees.

A special meeting of Redwood citizens was held Thursday night in the Supervisors' chambers to consider candidates who would be suitable as town trustees to go before the people for election on April 11th. The meeting was called to order at 8 o'clock by Judge E. F. Fitzpatrick, who acted as temporary chairman. H. W. Walker was placed in nomination for chairman and was so chosen. D. R. Stafford was then chosen secretary.

Mr. Walker briefly told the objects of the meeting, which were to select three candidates for trustees and to discuss the needs of the town.

P. P. Chamberlain was called upon and expressed his belief that the men to be selected should be independent business men and willing and able to do the work. He said that there was a crying need for improvements on our streets and believed that the men to take office should see that repairs should be made.

George H. Bice, Robert Brown and James Crowe were called upon and expressed themselves in the same way.

L. P. Behrens was called and told in no uncertain way what should be done and gave a fitting illustration of what our streets were doing for the town.

Judge Fitzpatrick then placed Henry W. Walker and Robert Brown in nomination. Mr. Brown declined the honor but Mr. Walker agreed to accept if the meeting desired. As it was unanimously desired, he agreed to accept the nomination and in doing so promised to use his every effort to carry on the town work in the most approved manner.

Mr. Brown was then requested to withdraw his declination but refused to do so. Clark Rice was then placed in nomination. Mr. Rice felt that other duties would not allow him to accept, and though urged, would not accede.

Mr. Behrens was next asked to consider whether he could not take the duties on himself, and though there was a unanimous sentiment expressed that he was just the kind of a man the town needed, he said that he felt that he was too radical on some positions to accept the trusteeship.

H. Steinberger was then placed in nomination but declined.

P. J. Foley was put before the meeting and accepted. At this point D. Mullen again brought Mr. Behrens forward as a candidate but he refused on the grounds that his district would be represented by Mr. Foley. Mr. Behrens nominated H. Mourot for a second term and that gentleman not being present to decline, was unanimously chosen.

After a short discussion as to the needs of our public streets, the meeting adjourned.

It is unnecessary here to say anything regarding the gentlemen selected as they are so well known, but it might be added that in Mr. Walker the citizens made a very wise choice. He is a gentleman whose interests are the town's interests He is thoroughly honest and it is an honor to have such a representative upon our board. He is so well posted legally that there will be little danger of mistakes in law while he is a member, and the people may always be sure that he will vote on the right side even if he should be in the minority.

Mr. Foley is also well and favorably known in our town and has resided here many years. He is a representative business man and may be counted on to do all in his power to advance the welfare of Redwood.

Mr. Mourot has served one term as a trustee for the town and the minute book of the trustees shows a clean honest record in every matter in which he participated. His vote was always cast on the right side. The people may feel that their interests will be subserved if Mr. Mourot accepts the nomination.

### Granted a Divorce.

Last Thursday Judge Buck granted a divorce to Frances R. Hamilton from her husband Milton Hamilton on the grounds of failure to provide. The latter did not contest the action and Mrs. Hamilton was given the decree by default. Both parties are prominent residents of San Mateo.

NOTICE

—TO—

TAX-PAYERS

—OF THE—

COUNTY OF SAN MATEO

For the Year 1904.

ALL TAXPAYERS ARE REQUIRED BY LAW to annually make and deliver to the Assessor a statement, under oath, setting forth specifically all the real and personal property owned by such person, or in his possession, or under his control, at 12 o'clock meridian on the

FIRST MONDAY IN MARCH.

Accordingly, you are requested to fill out the assessment blanks in question and deliver the same at the office of the Assessor immediately, making oath thereto.

The property of all persons who refuse or neglect to furnish such statement will be arbitrarily assessed; and such assessment will not be subject to equalization. Refusal to furnish the statement above required will subject the person refusing to a fine of $100.

A State Poll Tax of $2, if paid before the first Monday in July, and if not paid until after said date, then $3 is required of every male inhabitant of this county over 21 and under 60 years of age, except paupers, insane persons and Indians, not taxed; and a demand upon all persons liable therefor is hereby made for the payment of same, either at this office or to the deputies in the field.

Any information relating to the assessments will be furnished upon application to the Assessor's office.

D. D. HAYWARD,
County Assessor.

**The Seventeen Year Locust.**

The open air career of the seventeen year locust is soon completed, though in its dormant and earlier form it is said to live underground for seventeen years, feeding on roots.

The larvæ drop from eggs laid in the twigs of trees and quickly burrow out of sight, each one forming for itself a subterranean chamber, where it remains buried and alone month after month for fully seventeen years, preparing in some mysterious manner for its brief enjoyment of freedom.

With perfect regularity at the end of the allotted period myriads of these insects attain maturity and emerge from their long imprisonment, when for a month or so the winged male sings his striking song of courtship, while the female busies herself with laying eggs.

There is a continuous record for about two centuries of the recurrence of the cicada at these seventeen year intervals. The first note on the subject was made in 1715.

**A Small Beginning.**

Long before the Revolution a young printer in Philadelphia, when he had taken off his working apron at night, used to sit poring over his dozen of old volumes by firelight. He soon knew them by heart and hungered for more. But books were costly, and he had but little money.

He had eight or ten cronies, young men who, like himself, were eager for knowledge. Ranging his books on a shelf, he invited his friends to do the same, that each of them might have the benefit of them all.

Ben Franklin thus laid the foundation of the first circulating library in this country.

THEDFORD'S

BLACK-DRAUGHT

THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. Thedford's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by Thedford's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than Thedford's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901.
I have used Thedford's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.

**Book Themes.**

Since the introduction of printing the subject matter of the aggregate of books shows approximately the following averages: Law and sociology, one-quarter of all; literature, one-fifth; applied science, one-eighth; history and geography, one-tenth; theology, religion and speculation, one-tenth; miscellaneous and bibliography, one-tenth; philology and languages, one-twentieth; natural sciences, art and philosophy shading off into small fractions and poetry not appearing in the classification.

**Not Like a Watch.**

"Do you know," he went on glibly after the parlor clock had struck 11, "do you know that a man is like a watch because he is known by his works?"

"I know he is not like a watch," she remarked, with a yawn, "for when he is wound up he doesn't seem to go."—Yonkers Statesman.

The Coach Stallion

DARNETAL III

Will make the Season of 1904

—AT THE—

Sweeney Ranch

One mile east of Redwood City

SERVICE FEE:

The Season.....$15.00
To Insure.....$20.00

DARNETAL III was bred by James Curran of Redwood City. He was sired by the registered French coach stallion Darnetel II, No. 2491; his dam a full-blooded Cleveland bay mare. He is four years old this spring, stands 16 hands and 3 inches high and weighs 1600 pounds. He is a handsome mahogany brown, high headed and a high stepper with fine knee action. He was bred to a few mares as a two-year old and three of his yearlings can be seen at the Sweeney ranch.

DARNETAL II, the sire of Darnetal III, is a magnificent specimen of the French coach horse (demi sang corrosier). He is a blood bay, stands 17 hands high and weighs 1500 pounds. Bred by M. Renault, Colomby, France. Sired by the great French government stallion Darnetal, No. 1231, by Utique (French government national stud). Dam La Pelote, by Lansborn (French government national stud).

His record of fifteen first prizes in the show ring, beating the best horses in France, Canada and California, show him to be the greatest horse of his breed that ever crossed the Atlantic. He is full blood and registered in both France and America.

His prize winnings are as follows: First prize at Government Concours of Alencon 1891; first prize and diploma of le Pin, 1892; first prize at Caen, 1893; first prize at Paris, 1893. Bought for 12,000 francs in 1893, and imported to Canada. First prize, over all breeds (60 stallions competing) Winnepeg, 1894; first prize Montreal, 1894; Springfield, 1894; Brandon, 1894; Winnipeg, 1895; Verden, 1895; Winnepeg, 1896; Portagela Prairie, 1896; Winnipeg, 1897. Imported to California in 1898. First prize, Sacramento State Fair, 1900; Tanforan Park, 1900; Santa Rosa, 1901; Sacramento, 1901; Santa Rosa, 1902.

THE ANCESTRAL TREE.

**Its Branches May Be Widespread For Some Future Americans.**

"Speaking of heterogeneities and the homogeneousness of the same, if one may say it, the American, say 500 years from now, may have some trouble in tracing the lines of his family tree," said a thoughtful man. "At any rate, judging from the progress the United States is making, there is a chance for a few difficulties along this line. In the erstwhile, and even now, the job was comparatively simple. It was and is simply a question of going back to the days of the Revolution, colonial days, the days of the white haired grand dames. But the American of the future will have no such simple task. One's family tree must branch out and expand with the country. For instance, the men and women of the future will have to trace their lines through an ancestry thus geographically given: Indian, Mexican, American, Hawaiian, Porto Rican, Cuban, Philippinian, Panamaian and Alaskan. And yet these are only a few of the possibilities which might be mentioned in the same connection and for the same reason. Uncle Sam is an expansive sort of fellow, and just where he will quit one may not guess even in the wild recklessness of one's fancy. The American of the future may be put to the dire extremity of showing some sort of remote ancestry association with even the lynx eyed far easterners."—New Orleans Times-Democrat.

**An Eloquent Peroration.**

"And," said the rising young politician as he reached his eloquent peroration, "I predict that our candidate will, when the votes are counted, be found to have ridden to success upon a tidal wave of glory that will have swept all before it like wild fire breaking in flying spray upon the strand where the sun of victory shall blaze forth its most effulgent rays upon the close of one of the most noble, most memorable campaigns that have ever been launched upon the sea of politics to gather strength and carry all before it like the cyclone sweeping across the broad prairies from which even the orb of day has disappeared in terror."

BOOKS YOU OUGHT TO HAVE.

WE have issued three publications which every trans-continental traveler should read.

One is a 24-page booklet—"The Way Book of the Golden State Limited." It is really an annotated time table, briefly describing the cities and points of interest along the El Paso-Rock Island Route.

The other book is called "The Golden State Limited." It contains 16 pages and is devoted almost entirely to a description of the train, which is, as everyone who has seen it knows, the handsomest in the country.

The third publication is a folder "Across the Continent in a Tourist Sleeping Car." In it is a map of the various tourist car lines operated by the Rock Island System, as well as time tables and information as to the cars themselves.

All three books are mailed free to any one who will take the trouble to ask for them.
